

FOREVER YOURS

AMBIENCE, FUNCTIONALITY AND CLASSIC DESIGN

GRAM is renowned for developing products that give their owners pleasure in everyday life. This is because GRAM concentrates on quality and durability, and focuses on developing functional, environmentally friendly domestic appliances in a classic design.

GOOD REASONS FOR PURCHASING GRAM

GRAM for the environment

All models in the M60 and M56 range are imported solely for their energy efficiency, their EECA test results ranging from 4½ Stars to 6 Stars. This benefits the environment and saves you money by reducing your electricity bills. The fact they are extremely quiet also helps you sleep peacefully.

GRAM for functionality

GRAM refrigerators and freezers are easy to use, from their simple, user-friendly operation via intelligent controls, to their extremely flexible layout, wealth of fittings and ease of cleaning.

GRAM for classic design

The M60 range is also a delight to behold. The White or Stainless Steel (M56 range comes in White Only) cabinets are designed with simple clear lines that fit in almost anywhere and will continue to do so for many years to come.
